# INTERNATIONAL
## MATHEMATICA®
### SYMPOSIUM 2005

**The University of Western Australia
Perth, Western Australia
5–8 AUGUST**

Perth, Western Australia

## CALL FOR PAPERS
The closing date for abstracts is February 28, 2005. Please submit your proposals by email to Paul Abbott paul@physics.uwa.edu.au

## CALL FOR CONTRIBUTIONS
The IMS 2005 Organizing Committee also seeks proposals for
- Discussion Panels and Workshops,
- Art Exhibitions & Installations,
- Poster Presentations,
- Software Demonstrations, and
- Displays / Exhibition Booths by vendors and sponsors.

**The closing date for such submissions is April 30 2005.**

An interdisciplinary conference for users of Mathematica in mathematics, natural and life sciences, social sciences and law, engineering, graphics and design, arts and music, education, industry, and commerce.

If you use Mathematica in research or teaching, or if you have developed or are developing products based on Mathematica, then the Symposium is an opportunity to share your results with like-minded colleagues. IMS has also built up a deserved reputation as an exceptionally convivial and friendly gathering.

The Symposium is refereed, and a published Proceedings (book or CD with ISBN) is produced for each conference.

In 2005 it will be held at the School of Physics of The University of Western Australia. The Symposium will run from 5-8 August, including optional Mathematica training sessions.

Special rates with local hotels and serviced apartments have been negotiated to make this conference affordable.
